

San Juan
Unified School District

Let's stay safe together while staying 6 feet apart

The health and safety of our students and staff is a top priority in San Juan Unified. It is important that we maintain 6 feet of physical distance at our schools, both inside and outside the classroom.

You will see directional signage around campus asking you to move in one single direction through specific hallways or pathways. You may also see markings on the floor to help maintain space.

The number of individuals allowed into specific rooms may be limited. Desks are 6 feet apart in classrooms.
