

**Directions:** After watching the documentary, read and respond to each statement below.

1. College costs have risen 1,120% since 1978, rapidly outpacing the rise in the cost of food or health care.

2. Colleges in the United States, long regarded as leaders in higher education, have come to embrace a business model that often promotes expansion over quality learning.
3. Harvard is among only 1.25 percent of colleges in the nation to offer full need-based scholarships.
4. “The value of my education is priceless but the value of my education is also not \$140,000 in debt.”
5. Give your opinion - Is college worth the cost?
