# San Juan Unified Requirements and Alternate Pathways to Graduation

## College & Career Grad Requirements

San Juan Unified will be launching new graduation requirements with the class of 2023. This new standard reflects the importance of all students having access to course work that challenges them and prepares them for life after high school.

Increasing expectations and required credits in math, science, and a language other than English will not only align with college expectations, it will prepare students for a variety of careers whether or not they choose college.

## Student Planning

NAVIANCE

Using our online planning tools and meeting in person with counselors, students stay on track.

Students create a course plan that includes a path towards meeting the new graduation requirements.

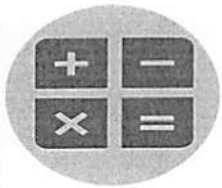

Students meet with a counselor to discuss and possibly amend the plan.

## Flexible Options

Working with counselors, students may adjust the plan in the following ways:

Complete the math requirement by taking a math-based alternative.

Complete the science requirement by taking a science-based elective

Complete the world language requirement by taking a language-based elective

## Start the Conversation!

Start talking now to ensure that students understand the requirements and are creating a plan to meet them. Visit [www.sanjuan.usd/collegecareerready](http://www.sanjuan.usd/collegecareerready)
