School Accountability Report Card

Reported Using Data from the 2015-16 School Year

Published During 2016-17

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements, see the California Department of Education (CDE) SARC Web page at <http://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or LCAP, see the CDE LCFF Web page at <http://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest Web page at <http://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

School Description and Mission Statement (School Year 2016-17)

Mission Statement

Utilizing innovation and collaboration, San Juan High School's mission is to educate and empower each student to compete and thrive in our ever-changing society, achieving beyond their academic and personal goals, through high quality, college preparatory instruction within cutting-edge career pathways and by strengthening our diverse alliance of students, staff, families, and community in a safe and enriched environment.

School Profile

San Juan High School has been in existence since 1913 serving the Citrus Heights Community. San Juan is rich in diversity and varying learning styles. The student population is 28% Hispanic, 53% White, and 10% African American and 9% other. 34% of the student population is English Language Learners (ELL). Just over 70% of students receive free/reduced lunch. The demographic is important in providing the type of learning that is conducive to learners.

San Juan High School is a Program Improvement Year 3 school. LEA informs parent and public of corrective action and allows comment. May provide direct technical assistance to school site councils in developing school plans. LEA identifies school for corrective action and does at least one of the following:

- Implement new curriculum.
- Extend school year or day.
- Restructure internal organizational structure of school.

LEA continues to provide technical assistance; notify parent of PI status of school, school choice, supplemental services; provide professional development; and provide school choice.

LEA and the school provide professional development. Collaborate with district to improve student achievement. The staff-directed school redesign includes small learning communities, which help to individualize instruction for students and prevent students from "slipping through the cracks," Project Based Learning (PBL) to give kids student-focused instruction and hand-on experiences, and support through AVID programs and our ASSETs after-school support program.

Through the WASC accreditation process, the staff at San Juan High School is committed to the development of graduates with 21st Century Skills: collaborative workers, critical thinkers, quality producers/performers, effective communicators, self-directed learners and community contributors.

A. Conditions of Learning

State Priority: Basic

The SARC provides the following information relevant to the Basic State Priority (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

Quality, Currency, Availability of Textbooks and Instructional Materials (School Year 2016-17)

Year and month in which data were collected: September 22, 2015

San Juan Unified held a public hearing on September 22, 2015 and determined that each school within the district had sufficient and good quality textbooks, instructional materials, or science lab equipment pursuant to the settlement of Williams vs. the State of California. All students, including English learners, are given their own individual standards-aligned textbooks or instructional materials, or both, in core subjects for use in the classroom and to take home. Textbooks and supplementary materials are adopted according to a cycle developed by the California Department of Education, making the textbooks used in the school the most current available. Materials approved for use by the State are reviewed by all teachers and a recommendation is made to the School Board by a selection committee composed of teachers and administrators. All recommended materials are available for parent examination at the district office prior to adoption. The table displays information collected in September 2015 about the quality, currency, and availability of the standards-aligned textbooks and other instructional materials used at the school. If you would like more information on the textbooks and instructional materials please visit our website: <http://www.sanjuan.edu/Page/23485>

In July 2009, EC Section 60200.7, delayed all instructional materials adoptions and the development of curriculum frameworks and evaluation criteria until the 2015-16 school year. Since then the State Board of Education has adopted frameworks for ELA/ELD, Math and Social Sciences, and has identified an approved list of instructional materials available for adoption. For more information regarding San Juan’s textbook adoption schedule, please visit our website: <http://www.sanjuan.edu/cms/lib8/CA01902727/Centricity/Domain/140/Textbook%20Piloting%20adoption%20Schedule.pdf>.

School Facility Conditions and Planned Improvements (Most Recent Year)

The first phases of the current modernization at San Juan High School began in the spring of 2009. San Juan High School has sufficient classrooms to house the student population. Each classroom has fire and intrusion monitoring and alarms, a telephone, television, and internet connections. The site custodial/maintenance team works diligently to keep the campus clean and operational. The District continues to provide gardening and landscape maintenance as well as support to keep the major systems such as plumbing, electrical, heating and air conditioning, etc., functioning. Staff and community members still share concerns about the condition of San Juan High School’s driveways, parking lots and athletic fields. In 2005, under the local Measure J Bond, the science rooms were upgraded with cabinets, counters, power, gas, flooring and painted.

The summer 2009 was the start of a 5 year remodel which linked to the new San Juan High curriculum program. This project was funded by multiple sources including Measure-S and Measure-J bonds. Projects included the completion of renovated auto, engineering and construction buildings, digital media/TV studios, a new 10,000 sq ft culinary building, upgraded and new infrastructure including electrical, plumbing, and data lines, and landscaping including new front fencing, walkways, plants, parking lots, and lighting all around the campus. Additionally, all classrooms were fitted with an integrated audio/visual system which included a ceiling mounted digital projector, screen, audio speakers, and an integrated wall-mounted control panel. The new administration building was completed in December 2011. The auditorium was opened in November of 2012. Winter 2013/Spring 2014, The Performing Arts Theater, through Measure J funds, received a complete renovation including walls, flooring, interior painting, renovation of theater seating, stage, lighting, sound system, foyer doors, path of travel, ADA access.

The Board of Education and the Superintendent's policy is to ensure that all students are provided with a safe and well-maintained learning environment. The board approved resolutions in 1998 and 2002 to adequately fund maintenance activities and preserve the repairs and improvements funded by two facility bond measures. The school buildings, classrooms and grounds are safe, clean and functional. An inspection of the facility was conducted in September 2016 and determined that there were no unsafe conditions that required emergency repairs. District maintenance staff ensures that the repairs necessary to keep the school in good repair and working order are completed in a timely manner. A computer automated work order process is used to ensure efficient service and that emergency repairs and health and safety repairs are given the highest priority. The Board of Education has adopted cleaning standards and custodial staffing requirements for all schools in the district. This school meets the Board's standards for custodial staffing and cleanliness. The school's custodians are trained in the proper use of cleaning chemicals and Integrated Pest Management techniques. They are managed day to day by the Principal with assistance from the district's maintenance department. The district participates in the State School Deferred Maintenance Program, with funding allocated for major repair or replacement of existing school building components. Typically, this includes roofing, plumbing, heating, air conditioning, electrical systems, interior or exterior painting, and floor systems. Annually the district budgets \$2 million dollars for deferred maintenance activities.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

- **Statewide assessments** (i.e., California Assessment of Student Performance and Progress [CAASPP] System, which includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. The CAAs have replaced the California Alternate Performance Assessment [CAPA] for ELA and mathematics, which were eliminated in 2015. Only eligible students may participate in the administration of the CAAs. CAA items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with significant cognitive disabilities); and
- The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study

CAASPP Test Results in English Language Arts/Literacy (ELA) and Mathematics for All Students

Students with Disabilities	11	32	30	93.8	3.5

Note: ELA test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

Career Technical Education Programs (School Year 2015-16)

San Juan High School has five Career Pathways: Culinary/Bakery, Innovation Design, Media/TV occupations, Automotive Technology, and Construction Technology. Freshmen are all part of a Freshman Academy that teaches them innovative design principles and affords them the opportunity to experience each of the five pathways.

San Juan Unified defines their career paths following the strict criteria set within the Perkins Act and/or the California Partnership guidelines. Although most completion data is collected through our ROP regionally (Sacramento County Office of Education), the CTE department collects data on the number of students moving through our local sequences. Some ROP courses, because of the time requirements, internship element and industry standards they meet, are defined as a sequence within themselves. All career pathways lead to certification, employability, further technical training. The automotive, construction, and culinary programs maintain articulation agreements with community colleges and universities. Students completing these pathways leave high school with college credits and a certificate/industry skill sheet or license if applicable. The program also provides the student with academic and technical knowledge and skill through integrated academic and technical instruction.

San Juan Unified provides career preparation through enrollment in California Partnership Academies. The district supports four California Partnership Academies in the areas of business–finance/entrepreneurship, pre-engineering, Sports Careers and Opportunities in Recreation (SCORE), and small business entrepreneurship. Our schools have numerous career paths opportunities beyond the state funded California Partnership Academy. We have career pathways in:

- Auto Service Technician
- Auto Mechanics Technician I
- Auto Mechanics Technician II – Brakes
- Auto Mechanics Technician II – Electronics/Electrical
- Bakery Academy I
- Bakery Academy II
- Construction Technology I
- Construction Technology II
- Culinary Arts I
- Culinary Arts II
- Digital Imaging
- Digital Media
- Hospitality Management : Small Business
- Innovation Design
- Innovation Desing/ Advance Manufacturing
- Foods/Nutrition I
- Foods/Nutrition II
- Television Occupations I
- Woodworking Specialties

How does this class support student achievement?

Students who engage in the pathways at San Juan High School find relevance in their studies, are provided an opportunity to apply their academic and industry skills to every day problems, are taught to think critically, and are required to act professionally.

How does the school address the needs of all students in career preparation?

Through the IEP process special education students may be scheduled into CTE courses. Students are provided the support and necessary curriculum modification as outlined in the IEP. CTE provides extended testing time, extra assignment time and support where appropriate. Since our CTE courses work to integrate and support the academic standards, the students will be exposed to "hands on" activities and participate in solving real life problems.

How are the courses evaluated for effectiveness?

The capacity to serve a "significant" number of students and the degree to which the program attains specific outcomes are assessed yearly. Completion rates, graduation rates, and completion of a sequence are all evaluated yearly. The number of completion certificates issued and the attainment of specific industry skills is analyzed. Data on attendance is also collected.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the Parental Involvement State Priority (Priority 3):

- Efforts the school district makes to seek parent input in making decisions for the school district and each schoolsite.

Opportunities for Parental Involvement (School Year 2016-17)

Contact Information:

Parents or community members who wish to participate in leadership teams, school committees, school activities, or become a volunteer may contact the principal of San Juan High School (916) 971-5112.

Parent Involvement:

Parents are an integral part of the learning environment and school community at San Juan High School. Parents are encouraged to participate in the learning of their students and assist in the emotional and physical safety of our school community.

- The Booster Club is run exclusively by parents and assists in the development of scholarship funds for SJHS students and financial and "manpower" assistance for programs in athletics, visual and performing arts, clubs, and other school-sponsored activities.

- Spartan Family Club provides support in school climate and student recognition, provides incentives for positive student academics and behavior, provides assistance in school-sponsored activities and clubs, and provides donations to supplement teacher's classrooms.
- English Language Advisory Council (ELAC) provides second-language parents an opportunity to contribute to the school and make recommendations on how their students can be supported in both academic and social settings.
- Home/School Communication is provided through the school web site, schoology, regular email and phone communications, and the Weekly Newsflash.
- School Site Council includes parents on decision making for budgetary and program support needs.
- Volunteers are an essential part of any school/community partnership. Parents are encouraged to participate in any way they are able, including chaperoning field trips, classroom assistance, and as office volunteers.

For more information on parent involvement please contact: Vanessa Adolphson 916-971-5112

School Safety Plan (School Year 2016-17)

This school is linked directly to the San Juan Unified School District's Safe Schools Program. In partnership with the Sacramento County Sheriff's Department and the City of Citrus Heights Police Department (CHPD), each school becomes part of a safety zone that is patrolled daily by a sheriff's deputy or CHPD officer. The Deputy Sheriffs are assigned to specific schools which are identified by geographic zones. The Deputy Sheriffs may move from one the geographic zone to another as safety needs dictate. The CHPD Police Officers work identified schools within the City of Citrus Heights and respond as safety needs dictate. The Deputy Sheriff's and/or CHPD Officers are dispatched to critical incidents via the Safe Schools Dispatcher, a law enforcement dispatcher or via a direct report from a school staff member, school visitor or other person. In addition to daily support from a designated Sheriff's deputy or CHPD officer, this school is a part of the San Juan Unified School District's Safe Schools Task Force, which is comprised of safety teams from each of the school sites. Each school safety team meets regularly to discuss safety issues, update their site emergency plans, and to take steps to be proactive in preventing various types of school-related safety issues. Law enforcement provides speakers to address students, staff and community groups. Our safety team receives regular training through the Safe Schools Task Force. Each school site is responsible for updating their Comprehensive School Safety Plan (CSSP) by March 1st of every year. As part of the update, each school site meets at least once per year with a law enforcement officer to review the CSSP and they hold a community meeting to review the CSSP. The CSSP must be approved by the School Site Council before being submitted to the district Safe Schools Manager. Every San Juan classroom has a standardized "Safety Folder" which serves as a guide for teachers, includes the site specific crisis response procedures and a district standardized emergency flip chart. Each school site conducts and keeps a record of all fire drills, lockdown drills, shelter in place drills and/or earthquake drills up to or in excess of what is required by State law.

The Safety Plan was reviewed by School Site Council on March 15, 2016

The Safety Plan was discussed with staff on August 17, 2016

Types of Services Funded (Fiscal Year 2015-16)

The table provides a comparison of a school's per pupil funding from unrestricted sources with other schools in the district and throughout the state.

Supplemental/Restricted expenditures come from money whose use is controlled by law or donor. Money designated for specific purposes by the district or governing board is not considered restricted. Basic/unrestricted expenditures, except for general guidelines, is not controlled by law or donor.

For detailed information on school expenditures for all districts in California, see the CDE Current Expense of Education & Per-pupil Spending Web page at <http://www.cde.ca.gov/ds/fd/ec/>. For information on teacher salaries for all districts in California, see the CDE Certificated Salaries & Benefits Web page at <http://www.cde.ca.gov/ds/fd/cs/>. To look up expenditures and salaries for a specific school district, see the Ed-Data Web site at: <http://www.ed-data.org>. In FY 2011-12, the district spent \$7,732,354 in restricted general fund for positions that would have usually been paid for by unrestricted dollars (SF-0) due to receiving American Recovery and Reinvestment Act (ARRA) Education Jobs Funds (EJF). The positions that were paid for included 21.0 FTE for Counselors, 24.0 FTE for Principals and 18.0 FTE for Vice Principals. Due to this change, many schools showed a decrease in unrestricted costs and an increase in restricted costs. In FY 2011-12, the district spent \$3,163,102 in restricted general fund from the Economic Impact Aid (EIA) grant. The expenses were coded with a central location (000) in 2011-12, when in the previous year the dollars were coded to site locations. The impact of this change will show a decrease in restricted expenses.

Professional Development (Most Recent Three Years)

Professional development is a key part of the continuous improvement process for educators. The goal of our quality professional development is to support the learning of teachers and paraprofessionals to positively impact student achievement. Annually, teachers and site administrators participate in professional development in a variety of opportunities. Seventy-five minutes per week are dedicated to staff collaboration and training planned by site leadership teams. The District also provides a cycle of continuous professional development for Administrators through Principal Networks as well as Leadership Academies.

The District provides professional development opportunities for teachers and administrators that support the implementation of Common Core State Standards in English language arts, mathematics, science, social studies, and the ELA/ELD Framework. Specific professional development initiatives include: Culturally Responsive Practices, Critical Literacy, TK-2 Reading, Supporting Independence and Engagement through Reading and Writing, Engineering and Mathematics Inspiring Thinking Solutions, Math to the Core, Expository Reading and Writing Course, and ELD Foundations. District departments, Center for Teacher Support, grant-funded projects, and the San Juan Teacher's Association sponsor additional training opportunities. Professional development opportunities are voluntary for teachers and are provided throughout the year in a variety of formats: during the school day, after school, on Saturdays, and during summer and vacation breaks. Many teachers and administrators also take advantage of opportunities with Sacramento County Office of Education, California Department of Education, the college/university programs, state/national education organizations, and private educational institutes.

What grounds the professional development in the district is the District Strategic Plan and the Local Control Accountability Plan. Professional Development is further determined using one or more of the following: (a) student achievement data, (b) staff survey data, and (c) district-identified goals. Professional development addresses the Common Core State Standards, teaching strategies, curriculum, assessment, technology, classroom management, safety, and leadership. Administrator training accompanies professional development in district focus areas, providing implementation support for teachers on site. Content-area coaches are available at some schools. Additional classroom support is provided to new and struggling teachers by consulting teachers from the Center for Teacher Support.

Paraprofessionals are encouraged to participate in professional development at the district and site level. Specifically designed training is also offered to non-instructional support staff such as clerical and custodial staff that includes both operational and instructional topics.
