School Accountability Report Card

Reported Using Data from the 2019-2020 School Year

Published During 2020-2021

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or the LCAP, see the CDE LCFF webpage at <https://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

School Description and Mission Statement (School Year 2020-2021)

Mission

Our mission is to ignite our students' creative genius by ensuring a challenging, relevant, and joyful education that empowers every student to find their unique purpose and identity.

Vision

At Meraki, students discover their own strengths, create and align goals to meet competencies, recognize the value of others, connect and engage with the community and prepare themselves personally, academically and professionally for their future.

The Meraki teaching philosophy is based on our desire to support passion-based learning in students by encouraging them to follow their curiosity and embark on journeys where they do not have all the answers. We want our students to look for alternative and unusual answers, tap into their powers of creativity and imagination, and ask questions that are important to them and their peers. The concepts of design thinking inform our work and we believe academic mastery is best accomplished by providing students with opportunities to revive their creative genius and take ownership of their own learning through co-creation and co-teaching throughout their school day in order to construct an environment that is responsive to their shifting learning needs and desires.

Students at the Meraki High School will be engaged in inquiry-based learning through extensive individual or group projects. These projects will be created by students with support from their teacher/mentor and will focus on the development of Deeper Learning Competencies including: mastery of core academic content, critical thinking and problem solving skills, collaboration, communication, student-directed learning, and academic mindsets. At Meraki, we celebrate peer critique, constant revision, tinkering and learning through failure, which is reflected in our use of performance-based assessments. Determination of student success will not be limited to scores on exams, but by portfolios, presentations, artwork, and written work they produce throughout the year.

The school is located at a multi-school site called the Alternative Learning Center. Students have access to a Maker Space and are guided by 5 full time teachers and a counselor.

A. Conditions of Learning

State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

Note: "Misassignments" refers to the number of positions filled by teachers who lack legal authorization to teach that grade level, subject area, student group, etc.

*Total Teacher Misassignments includes the number of Misassignments of Teachers of English Learners.

Quality, Currency, Availability of Textbooks and Other Instructional Materials (School Year 2020-2021)

Year and month in which data were collected: September, 2019

San Juan Unified held a public hearing on September 22, 2020 and determined that each school within the district had sufficient and good quality textbooks, instructional materials, or science lab equipment pursuant to the settlement of Williams vs. the State of California. All students, including English learners, are given their own individual standards-aligned textbooks or instructional materials, or both, in core subjects for use in the classroom and to take home. Textbooks and supplementary materials are adopted according to a cycle developed by the California Department of Education, making the textbooks used in the school the most current available. Materials approved for use by the State are reviewed by all teachers and a recommendation is made to the School Board by a selection committee composed of teachers and administrators. All recommended materials are available for parent examination at the district office prior to adoption. The table displays information collected in September 2018 about the quality, currency, and availability of the standards-aligned textbooks and other instructional materials used at the school. If you would like more information on the textbooks and instructional materials please visit our website: <http://www.sanjuan.edu/Page/23485> In July 2009, EC Section 60200.7. The State Board of Education has adopted frameworks for ELA/ELD, Math, Science and Social Sciences, and has identified an approved list of instructional materials available for adoption. For more information regarding San Juan's textbook adoption schedule, please visit our website:

School Facility Conditions and Planned Improvements

Site custodial staff clean the buildings and district Maintenance and Operations staff ensure that repairs necessary to keep the school in good repair and work orders are completed in a timely manner. A work order process is used to ensure efficient service and highest priority is given to emergency repairs. Deferred Maintenance funds have been utilized in recent years to repair the roof at the campus.

School Facility Good Repair Status

Using the **most recently collected** FIT data (or equivalent), provide the following:

- Determination of repair status for systems listed
- Description of any needed maintenance to ensure good repair
- The year and month in which the data were collected
- The rate for each system inspected
- The overall rating

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

- **Statewide assessments** (i.e., California Assessment of Student Performance and Progress [CAASPP] System, which includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities); and
- The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Note: Cells with N/A values do not require data.

Note: The 2019-2020 data are not available. Due to the COVID-19 pandemic, Executive Order N-30-20 was issued which waived the requirement for statewide testing for the 2019-2020 school year.

Note: Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Career Technical Education Programs (School Year 2019-2020)

San Juan Unified defines their career paths following the strict criteria set within the Perkins Act and/or the California Partnership guidelines. The CTE department collects data on the number of students moving through our local sequences. Some CTE courses, because of the time requirements, internship element and industry standards they meet, are defined as a sequence within themselves. Introductory CTE courses are found throughout our schools, concentrators are students who take a second level course within the same career path, and students are referred to as completers when they complete a sequence of courses leading to certification, employability, and/or further technical training. Capstone courses are defined as completer based on length of course, sequence, and skill development.

The CTE capstone course leads to a certificate/industry skill sheet or license if applicable. The program also provides the student with academic and technical knowledge and skill through integrated academic and technical instruction. The programs prepare students to enter current or emerging careers for further training within the career path for which there is gainful employment. All students are provided practical experiences to pursue post high school employment and gain course work that is A-G compliant.

San Juan Unified also provides students career preparation through enrollment in California Partnership Academies. We have three California Partnership Academies in the areas of: business–finance/entrepreneurship, pre-engineering/product innovation, and patient care. Our schools have numerous career paths opportunities beyond the state funded California Partnership Academy.

CTE pathways offered at Meraki are:

- Introduction to Media Arts
- Media Arts
- Broadcast and Video Production (capstone course)

CTE capstone courses held at various high schools within San Juan Unified open to La Entrada students:

- Auto Maintenance and Light Repair I
- Auto Maintenance and Light Repair II
- Construction Technology
- Culinary Arts
- Dental Careers
- Dental Radiation and Safety (taken with Dental Careers)
- Fire Technology
- Medical Assistant
- Public Safety Careers

How does this class support student achievement?

When students experience CTE courses they have the opportunity to see the relationship between applied academic standards and the real world. Students find purpose in their studies and are provided an opportunity to apply their academic and industry skills to every day problems.

How does the school address the needs of all students in career preparation?

Through the IEP process special education students may be scheduled into CTE courses. Students are provided the support and necessary curriculum modification as outlined in the IEP. CTE provides extended testing time, extra assignment time and support where appropriate. Since our CTE courses work to integrate and support the academic standards, the students will be exposed to “hands on” activities and participate in solving real life problems. The school counselor work with each enrolled student to create a 4-year plan designed to prepare them for their future college and career aspirations.

How are the courses evaluated for effectiveness?

The capacity to serve a “significant” number of students and the degree to which the program attains specific outcomes are assessed yearly. Completion rates, graduation rates, along with completion of a sequence are all evaluated yearly. The number of completion certificates issued and the attainment of specific industry skills is analyzed. Data on attendance is also collected.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3):

- Efforts the school district makes to seek parent input in making decisions for the school district and each school site

Opportunities for Parental Involvement (School Year 2020-2021)

When parents, families, and members of the community are involved with schools, all children benefit. Adult participation sends the message that school is important and the work our students do at Meraki is worthy of adult attention. Our community recognizes that adults may participate in Meraki in different and varied avenues to ensure all students have quality learning experiences.

Partnerships between Meraki High School, families, and the community is identified in our partnership framework. This framework categorizes participation in six areas:

Learning from Home: Families work together through activities and facilitation of a teacher to assist with class work and recognizing other learning from home opportunities.

Parenting: Resources are made available to families to establish home environments to support children as learners. Please see 'Parent Resource' page on our website.

Decision Making: Meraki believes all stake holders including parents, students, and community members have a role in the decision-making processes. Stakeholders are encouraged to participate in Site Strategic Planning, School Site Council, and the English Learning Advisory Committee (ELAC). For more information, please call (916) 971-5001.

Communications: Meraki individualizes instruction for each student. Parents are encouraged to communicate directly with their child's teacher to gain valuable insight on how their child is performing in school. Whole school events and information are posted on the Meraki website. For general information or communication, please call (916) 971-5001.

Collaborating with the Community: Meraki's area of focus, called out in our Site Strategic Plan, is to identify and integrate resources and services from the community.

Volunteering: We understand that adults may participate in Meraki High School in different and varied avenues. Volunteers may work with students individually or in small groups. They may help organize school events or activities for students. Adults assistance with logistical and organization tasks are always appreciated and offered at flexible times. For more information, please contact Meraki's office at 916-971-5001.

Suspensions	0.94%	3.58%	
Expulsions	0.00%	0.03%	

Note: The 2019-2020 suspensions and expulsions rate data are not comparable to prior year data because the 2019-2020 school year is a partial school year due to the COVID-19 crisis. As such, it would be inappropriate to make any comparisons in rates of suspensions and expulsions in the 2019-2020 school year compared to prior years.

School Safety Plan (School Year 2020-2021)

San Juan Unified School District makes safety a top priority. In accordance with the California Education Code, each school site's comprehensive school safety plan is reviewed, edited as needed and approved by the school site safety team by March 1 of each year. The plan includes a review of safety data for the campus, incident response information in case of fire, earthquakes and other dangers, and details on safety policies. A copy of the plan is available for review in the school office.

Drills are held on a regular basis to include fire drills, earthquake drills and intruder drills.

Safety is a shared responsibility, and our school is supported by the district's Safe Schools program in coordination with the Sacramento Sheriff's Department and Citrus Heights Police Department. The Safe Schools program provides district employed safety specialists who provide safety advice, training and respond to critical incidents. Sworn law enforcement is called, when needed, to assist the safety specialists. In addition, San Juan Unified has the option of employing uniformed law enforcement officers when needed.

Professional Development (Most Recent Three Years)

Measure	2018-19	2019-20	2020-21
Number of school days dedicated to Staff Development and Continuous Improvement		9	9

Professional development is a key part of the continuous improvement process for educators. The goal of our quality professional development is to support the learning of teachers and paraprofessionals to positively impact student achievement. Annually, teachers and site administrators participate in professional development in a variety of opportunities. Seventy-five minutes per week are dedicated to staff collaboration and training planned by site leadership teams. The District also provides a cycle of continuous professional development for Administrators through Principal Networks as well as Leadership Academies.

The District provides professional development opportunities for teachers and administrators that support the implementation of Common Core State Standards in English language arts, mathematics, science, social studies, and the ELA/ELD Framework. Specific professional development initiatives include: Culturally Responsive Practices, Critical Literacy, TK-2 Reading, Supporting Independence and Engagement through Reading and Writing, Math to the Core, Expository Reading and Writing Course, and ELD Foundations. District departments, Center for Teacher Support, grant-funded projects, and the San Juan Teacher's Association sponsor additional training opportunities. Professional development opportunities are voluntary for teachers and are provided throughout the year in a variety of formats: during the school day, after school, on Saturdays, and during summer and vacation breaks. Many teachers and administrators also take advantage of opportunities with Sacramento County Office of Education, California Department of Education, the college/university programs, state/national education organizations, and private educational institutes.

What grounds the professional development in the district is the District Strategic Plan and the Local Control Accountability Plan. Professional Development is further determined using one or more of the following: (a) student achievement data, (b) staff survey data, and (c) district-identified goals. Professional development addresses the Common Core State Standards, teaching strategies, curriculum, assessment, technology, classroom management, safety, and leadership. Administrator training accompanies professional development in district focus areas, providing implementation support for teachers on site. Content-area coaches are available at some schools. Additional classroom support is provided to new and struggling teachers by consulting teachers from the Center for Teacher Support.

Paraprofessionals are encouraged to participate in professional development at the district and site level. Specifically designed training is also offered to non-instructional support staff such as clerical and custodial staff that includes both operational and instructional topics.
