**Skateboards Script**

**Rule:**
Skateboards are not allowed to be ridden on campus at any time during or after the school day.

**Rationale:**
There are many local skateboard parks where it is both legal, and more fun. ECFHS was not made for skateboards, thus it is less safe and physically damages the property.

**Rule:**
Skateboards are not allowed to be carried with students from class to class during the school day—they must be stored and locked in a safe location, for example your locker or in the skateboard racks inside of the bike racks.

**Rationale:**
This is a common rule across the state and across the country. This is because every once in a while, despite students’ best intentions, students get into fights. It has happened in the past, repeatedly, that when a student got into a fight while happening to be carrying his/her skateboard, that the skateboard was used as a deadly weapon. Thus, schools do not allow their students to carry their skateboards from class to class during the school day.
