San Juan's Mission...
Valuing diversity and excellence, the San Juan Unified School District’s mission is to educate and inspire each student to succeed and responsibly contribute to a radically evolving world by providing innovative, rigorous, student focused instruction and programs in a safe, caring and collaborative community.

Technology Services
Digital Literacy and CCSS Aligned PD
Summer 2016

Technology Services is committed to providing relevant, quality professional development for all staff of the San Juan Unified School District. In Summer 2016, Technology Services will offer a variety of blended online courses. Certificated employees will have the option to receive continuing education units (CEU’s) for completion of blended online professional development courses.

Courses will include a synchronous group webinar (mandatory) and asynchronous computer delivered instruction including videos, documents, online discussions, and quizzes. CEU’s for online professional development courses are based on satisfactory completion of all required tasks and activities within the designated time frame. As all learners learn at different paces, users will earn the pre-specified CEU hours regardless of the actual length of time it takes to complete the course.

“Powering student learning and innovation!”

1 Summer 2016 Course Offerings

*Participants may participate in any online course as often as they wish, but will only earn CEU’s for one satisfactorily completed session, per approved course
