Friday Memo

March 23, 2018

Happy Friday, I hope you've all had a great week!

Please join us on Tuesday, April 3 to celebrate the groundbreaking of Dyer-Kelly Elementary School's new campus. The ceremony will be held at 8 a.m. in the field behind the current campus. This is an exciting moment for San Juan Unified's modernization efforts and marks the first time the district has built a brand new campus since 1994.

Speaking of modernization, Sr. Director of Facilities, Maintenance & Transportation Frank Camarda and I have been working on an implementation plan that will guide us through the first several years of Measure P. This plan will include some exciting projects that will be great for students and staff.

We are working closely with Maintenance Manager Chris Ralston on some upcoming solar projects that are in addition to the Solar Shares program we have committed to with SMUD. The first project, slated to break ground at the end of the school year, is a solar carport project at Bella Vista High School. That project will include about \$400,000 in bond funding to compliment \$1.7 million from Proposition 39.

Reminder: Our next Bond Oversight Committee meeting is April 17 at Del Paso Manor Elementary School.

Have a great weekend,

Brett A. Mitchell
