Friday Memo

June 8, 2018

Happy Friday, I hope you've all had a great week!

On Wednesday, we held our pre-proposal meeting for Design-Build entities interested in the Del Campo High School signature project, an integrated learning building featuring science and career-technical education classrooms. It was a really great turnout and, again, a very encouraging sign that our projects attract the top contractors and architects in the field. I'm certainly excited to keep you all posted as we move forward in this process.

School is out for summer, which means our work really ratchets up until August while students are off campus. Just a reminder about all the work we have ongoing in the construction process or will be starting this summer:

- El Camino Center for the Arts
- Dyer-Kelly Elementary new campus
- Greer Elementary new campus
- Casa Roble Fundamental High School student union and administration building
- Encina Preparatory High School track and field
- Mira Loma High School track and field
- Rio Americano High School track and field
- Bella Vista High School track and field
- Safety/Fencing projects at five school sites: Mira Loma, Grand Oaks, Mission, Gold River and Edison
- HVAC replacement at all nine high school gymnasiums
- Wireless upgrades throughout the district

And that doesn't include the projects we have in the planning stages, which includes two high school signature projects (Mira Loma and Del Campo) and a brand new elementary site (Del Paso Manor). Keep up to date on all these projects throughout the summer at www.sanjuan.edu/constructionnews.

Have a great weekend,

Brett A. Mitchell
