### *Friday Memo*

Aug. 31, 2018

Happy Friday, I hope you've all had a great week!

As the school year has begun, our Design-Build teams on different projects have taken the initiative to set up booths at back-to-school nights to give students and parents information about construction. On Wednesday, Otto Construction was out at Greer Elementary with candy and a "selfie frame" for families to enjoy. McCarthy Building Companies, Inc. was on hand at Del Paso Manor Elementary with a virtual reality tour of the project and WLC Architects had an animation playing on the big screen. We also have Flint Builders planning to attend Casa Roble Fundamental High's back-to-school night and Clark/Sullivan Construction and Lionakis has been great about their interaction with Dyer-Kelly Elementary as well. We really appreciate all the support and information our partners provide to our stakeholders.

Speaking of the Del Paso Manor fly through, check it out by [clicking here](#). Great work from WLC Architects on this.

It was fun to see Encina Preparatory High School debut its new all-weather track and field last weekend with a 20-0 win over Delta Charter High School (Tracy) in football! The students couldn't be happier. [Click here](#) for a video with some student testimonials on how much having a new track and field has increased school pride at Encina.

Finally, I'd like to note that I'll be out of the office for 10 days, so the next memo will be on Oct. 14.

Have a great weekend,

*Brett A. Mitchell*
