# Dividing by 1-Digit Divisors

 Find  $362 \div 5$ .

**Step 1:** To decide where to place the first digit in the quotient, compare the first digit of the dividend with the divisor.

$3 < 5$ , so the first digit in the quotient will not go in the hundreds place.

Now, compare the first two digits of the dividend with the divisor.

$36 > 5$ , so the first digit in the quotient will go in the tens place.

**Step 2:** Divide the tens. Use multiplication facts and compatible numbers.

Think  $5 \times ? = 35$ .

Write 7 in the tens place of the quotient.

Multiply.  $5 \times 7 = 35$

$$\begin{array}{r} 7 \\ 5 \overline{)36} \\ \underline{-35} \\ 1 \end{array}$$

Subtract.  $36 - 35 = 1$

Compare.  $1 < 5$

Bring down the ones.

**Step 3:** Divide the ones. Use multiplication facts and compatible numbers.

Think  $5 \times ? = 10$ .

Write 2 in the ones place of the quotient.

Multiply.  $5 \times 2 = 10$

$$\begin{array}{r} 72R2 \\ 5 \overline{)362} \\ \underline{-35} \downarrow \\ 12 \\ \underline{-10} \\ 2 \end{array}$$

Subtract.  $12 - 10 = 2$

Compare.  $2 < 5$

There are no more digits to bring down, so 2 is the remainder.

**Step 4:** Check by multiplying.

$$5 \times 72 = 360$$

$$360 + 2 = 362$$

Divide. Check by multiplying.

1.  $8 \overline{)955}$

2.  $7 \overline{)249}$

3.  $9 \overline{)1,557}$

4.  $8 \overline{)2,448}$

5.  $2 \overline{)499}$

6.  $6 \overline{)396}$

7. How can you tell before you divide 425 by 9 that the first digit of the quotient is in the tens place?

# Dividing by 1-Digit Divisors

Find each quotient.

1.  $2\overline{)586}$

2.  $3\overline{)565}$

3.  $5\overline{)718}$

4.  $4\overline{)5,999}$

5.  $5\overline{)2,642}$

6.  $6\overline{)354}$

7.  $9\overline{)210}$

8.  $8\overline{)3,929}$

The Paez family lives in Louisville, Kentucky, and has decided to take a road trip for their summer vacation.

9. How many miles will the Paez family drive each day if they decide to take 5 days to drive 865 mi to Dallas? \_\_\_\_\_
10. The Paez family decides they want to drive 1,254 mi to Boston in 6 days. How many miles will they drive each day? \_\_\_\_\_
11. If a staff of 9 people had to clean a hotel with 198 rooms, how many rooms would each person have to clean if they divided the rooms equally?  
A 29                      B 25                      C 23                      D 22
12. Explain how to check the quotient from a division problem.
